A vital guide to the frontlines of our fight against climate change and the scientific and technological innovations that will revolutionize the world. The United States' accelerated plans to combat the existential threat of climate change finally give reason to hope. In *Our Livable World*, research specialist and author Marc Schaus explores the incredible new green innovations in science and engineering that can allow

us to avoid the worst repercussions of global warming as we work to usher in a sustainable, livable world. To beat a challenge the size of climate change, our solutions will have to be ambitious: solar thermal cells capable of storing energy long after the sun goes down, “smart highways” designed to charge your vehicle as you drive, indoor vertical farms automated to maximize crop growth with no pesticides, bioluminescent vines ready to one day replace our streetlights, jet fuel created from landfill trash—and next-generation carbon capture techniques to remove the

emissions we have already released over the past several decades. Far from the geoengineering schemes of cli-fi action thrillers, real solutions are being developed, right this moment. Our Livable World features interviews with the innovators, real talk on the revolutionary technology, and a clear picture of a cleaner planet in the future. “An important book that shows the dawn of a new kind of environmental movement—an age where we invest in deeply creative and fascinating technical solutions that work in harmony with the Earth. Marc Schaus lays out the exciting

how European integration, high wages, and the demise of GM and Ford led to plant closings in Belgium. Next, it investigates how lower wages and the expansion strategies of Western European automakers stimulated expansion in the Spanish auto industry. Finally, it offers three alternate scenarios regarding how further EU expansion and Brexit may potentially reshape the geographic footprint of European car production over the next ten years. In sum, this book utilizes history to help expand the knowledge of scholars and policymakers regarding how European

over the decades as automotive design has evolved. Along the way, a greater number of earlier body types have fallen out of use and become historical curiosities. Who today can identify a charabanc, a dos-a-dos or even a phaeton? In this expanded second edition, the dictionary defines with clear line drawings all distinct body types from the early days of the automobile, many of which were derived from established models of horse-drawn vehicles. Entries describe popular types and variations from different countries and time periods. Subtypes and subtle

THROUGH the centuries, Chinese women have had to struggle under a load of injustices—denial of education, ineligibility to sit the civil service examinations and hold official posts, female infanticide, selling of daughters, concubinage, foot binding—just to name a few. They had largely remained silent because they did not have a voice. As China descended to abject poverty in the nineteenth century, the lot of Chinese women

became even worse. When Chinese women came to Malaysia (Malaya then) largely from the nineteenth century onwards, the circumstances became different. Under British law, they were the equal of men, but social conditions took some time to evolve. For instance, daughters were left out of inheritance until quite recently, sons received preferential treatment in education and polygamy was declared illegal only in the 1930s. But Chinese women became successful entrepreneurs through their own ability, and, through education, many of them became distinguished

Workshop professionals. Phoenix Rising, Pioneering Chinese Women of Malaysia is the story of Chinese women who have immigrated to this country and forged independent lives different from their lives in China. They have shown courage, resilience and determination in improving their lives. Like the phoenix, the mythological bird that symbolises the Chinese woman, they are set to soar to greater heights given equal opportunities and just social conditions.
