"Warriors: An Infantryman's Memoir of Vietnam," by Robert Tonsetic, is an excellent addition to the canon of American military memoirs. In the preface Tonsetic notes that the book is "essentially a personal history" of his tour as a rifle company commander during the first six months of 1968—"the bloodiest year of the Vietnam War."

Warriors, an Infantryman's Memoir of Vietnam, was my first Vietnam book. After its publication in 2004, I have been in contact with many of the men who I served with in Charlie Company 4/12th Infantry during 1968. Most all liked the book, and provided more details that I left out of the book including some names and faces.

I came in to Warriors having read a ton of World War II memoirs, some World War I memoirs, and some modern day Iraq War memoirs, but surprisingly never read one on Vietnam. The Vietnam War was obviously a much different engagement than World War II, giving an entirely different perspective on an infantryman in war.

On the ground, in the air, and behind the lines, grunts made life-and-death decisions every day—and endured the worst stress of their young lives. It was the tumultuous year 1968, and Robert Tonsetic was Rifle Company commander of the 4th Battalion, 12th Infantry in Vietnam. He took over a group of grunts demoralized by defeat but determined to get even. Through the legendary Tet and May Offensives, he led, trained, and risked his life with these brave men, and this is the thrilling, brutal, and honest story of his tour of duty. Tonsetic tells of leading a seriously undermanned ready-reaction force into a fierce, three-day battle with a ruthless enemy battalion; conducting surreal night airmobile assaults and treks through fetid, pitch-black jungles, and relieving combat stress by fishing with hand grenades and taking secret joyrides in Hueys. During that fateful year, as unrest erupted at home and politicians groped for a way out of the war, Tonsetic and his men did their job as soldiers and earned the title “Warriors.”

Vietnam, A Memoir: Mekong Mud Soldier is the third work of a trilogy on one young Army officer's service in the Vietnam War. The first volume, Saigon Cop, covers his year as a Military Police platoon leader in Saigon. In the second volume, Airborne Trooper, he is a semi-trained infantry platoon leader trying to quickly climb a steep learning curve in one of the Vietnam War's legendary units, the 173rd Airborne Brigade. Together, the three books tell a tale of war stripped of glory, high purpose, inspiration, and superficial patriotism. The focus is on five Bs: booze, babes, boredom, bureaucracy, and occasionally battle. This third volume, Mekong Mud Soldier, begins with bureaucracy: the author's experience as a staff officer, or more irreverently, as a rear echelon flunky. The action heats up after he is sent as an advisor to a Vietnamese unit in the wet Mekong Delta. The advisory business is frustrating and sometimes dangerous. Ideally, it should be limited to volunteers, but in the rush to Vietnamize the war in the late 1960s, many U.S. officers and NCOs unhappily found themselves in duties they were only minimally prepared for.

This book provides a fresh approach to understanding the American combat soldier's experience in Vietnam. It integrates such topics as the political culture, the experiences of training, the actual Vietnam experience, and the 'homecoming', and offers a remarkable overview of the 870,000 'grunts' who bore the brunt of the fighting in the jungles and highlands of South Vietnam, and eventually Cambodia and Laos.The book addresses many of the stereotypes of the Vietnam combat veteran that have been perpetrated in popular culture, and also considers how Vietnam veterans have been commemorated through memorials and other means, and how the veterans remember each other. The coverage also includes women who served in or near the front lines as well as on the home front. The author draws on memoirs and oral histories including his personal interviews with veterans, but the book conveys a picture of the Vietnam combat soldier's experience far more powerful than what individual memoirs can provide.

Explores how Cold War men's magazines idealized warrior-heroes and sexual-conquerors and normalized conceptions of martial masculinity.

This is a unique account of the ways in which British veterans of the Second World War remembered, understood, and recounted their experiences of battle throughout the post-war period. Focusing on themes of landscape, weaponry, the enemy, and comradeship, Frances Houghton examines the imagery and language used by war memoirists to reconstruct and review both their experiences of battle and their sense of wartime self. Houghton also identifies how veterans' memoirs became significant sites of contest as former servicemen sought to challenge what they saw as unsatisfactory official, scholarly, and cultural representations of the Second World War in Britain. Her findings show that these memoirs are equally important both for the new light they shed on the memory and meanings of wartime military experience among British veterans, and for what they tell us about the cultural identity of military life-writing in post-war British society.

Marching across occupied France in 1944, American GI Leroy Stewart had neither death nor glory on his mind: he was worried about his underwear, which was engaged in a relentless crawl of its own. Similar complaints of physical discomfort pervade infantrymen's memories of the European theater, whether the soldiers were British, American, German, or French. Wet, freezing misery with no end in sight—this was life for millions of enlisted men during World War II. Sheer Misery trains a humane and unsparing eye on the corporeal experiences of the soldiers who fought in Belgium, France, and Italy during the last two years of the war. In the horrendously unhygienic and often lethal conditions of the front line, their bodies broke down, stubbornly declaring their needs for warmth, rest, and good nutrition. Feet became too swollen to march, fingers too frozen to pull triggers; stomachs cramped, and diarrhea stained underwear and pants. Turning away from the accounts of high-level military strategy that dominate many WWII chronicles, acclaimed historian Mary Louise Roberts instead relies on diaries and letters to bring to life visceral sense memories like the moans of the “screaming meemies,” the acrid smell of cordite, and the shockingly mundane sight of rotting corpses. As Roberts writes, “For soldiers who fought, the war was above all about their bodies.”

The gripping memoir of Navy Cross, Silver Star, Bronze Star, and Purple Heart recipient SEAL Lieutenant Mark L. Donald As A SEAL and combat medic, Mark served his country with valorous distinction for almost twenty-five years and survived some of the most dangerous combat actions imaginable. From the rigors of BUD/S training to the horrors of the battlefield, Battle Ready dramatically immerses the reader in the unique life of the elite warrior-medic who advances into combat with life-saving equipment in one hand and life-taking weapons in the other. It is also an uplifting human story that reveals how a young Hispanic American bootstrapped himself out of a life that promised a dead-end future by enlisting in the military. That new life begins with the Marines and includes his heroic achievements on the battlefield and the operating table, and finally, of his inspirational triumph over the demons caused by Post Traumatic Stress Disorder that threatened to destroy him and his family.
